FocusLock Auto-Focus Software

FIND YOUR FOCUS

Introducing a New Way to Auto-Focus

FocusLock is based upon SharpLock technology developed by Innovations Foresight, LLC and is covered under U.S. utility patent #14470935.

Titled "Closed-Loop System for Auto-Focusing in Photography and a Method of Use Thereof", Optec has licensed this technology to develop FocusLock auto-focus software.

Try it Free Today!

Combined with your ONAG On-Axis Guider or the new Lacerta for Lodestar add-on for Off-Axis Guiders, **FocusLock** provides the fastest auto-focus and only continuous closed-loop focus system available for astro-imagers.
